

Silver Audition 

HEAR BETTER, LIVE FULLY.

Your guide to rediscovering the joy of hearing.

DECEMBER 2025

Welcome Home to Better Hearing

A Message From Our C.E.O.

“My greatest joy is seeing someone reconnect with the world around them.”

“

If you're reading this, perhaps the world has started to feel a little too quiet. The edges of conversations have gone soft, and the laughter of loved ones seems distant. I want you to know: I understand.

I founded Silver Audition in 2013 not just to sell hearing aids, but to reconnect people with their lives. As an engineer, my passion has always been using technology to solve human challenges. And what is more fundamentally human than our need to share, to connect, and to feel included?

Our promise to you is simple: We will listen with empathy, we will offer you the world's leading technology at a fair and honest price, and we will be your trusted partner at every step. This guide is the first step on that journey.

I truly look forward to helping you rediscover the beautiful sounds of your life.

Silvana Filoso

A handwritten signature in white ink that reads "Silvana Filoso". The signature is written in a fluid, cursive style with a large, elegant initial "S".

All product lineup put together

Life is too rich to miss the details.

Do you often ask people to repeat themselves?

Do you find it difficult to follow conversations in groups?

Do you turn the TV volume up higher than others prefer?

Do you struggle to hear in noisy restaurants?

Do you sometimes feel left out, especially in a crowd?

Your World is Waiting to be Heard.

If you found yourself nodding along on the previous page, we want you to know one thing: it doesn't have to be that way.

A new generation of hearing technology now makes it possible to rediscover the sounds you've been missing. It's intelligent enough to adapt to any environment, and so discreet that you might even forget it's there.

This isn't just about turning up the volume. It's about rejoining the conversation, feeling the energy of a room, and living a life without compromise. It's about clarity, confidence, and connection.

83%

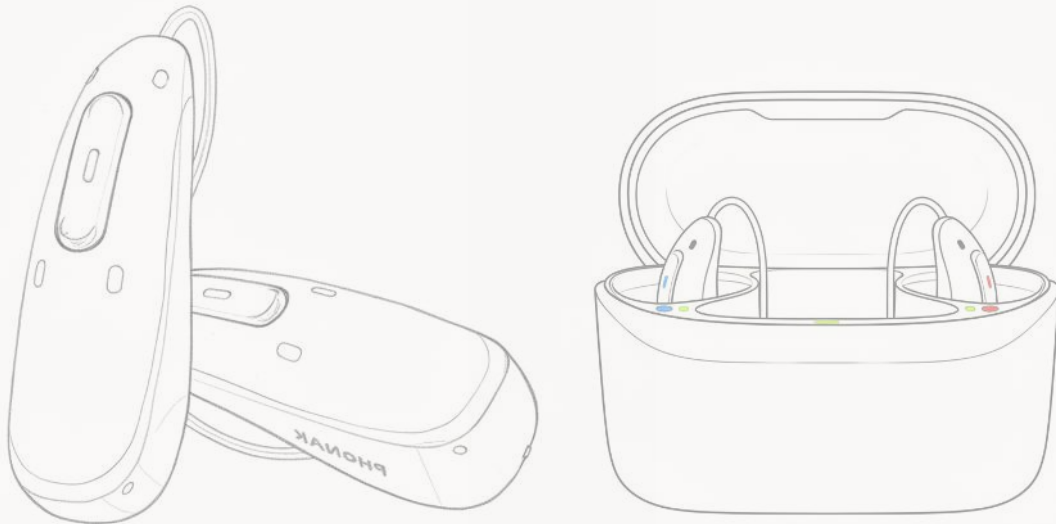

of hearing aid users report a significant improvement in their quality of life.

The Silver Audition Difference

Expert Guidance & Care You Can Trust.

We are not a general store; we are specialists. Our team has dedicated itself to mastering the most advanced hearing technology on the market—sophisticated solutions born from a legacy of world-class Swiss engineering.

This deep focus means we understand these intelligent platforms inside and out. It allows us to fit and fine-tune them with a level of precision that ensures the technology seamlessly adapts to your unique world. Our goal is your complete confidence, which extends to our pricing. We believe in being fully transparent—all our prices are published online, with no surprises. It's just one more way we ensure you feel secure and respected throughout your journey with us.

SECTION 2

YOUR PATH TO CLEAR HEARING

The Silver Audition Method:

Your Journey to Perfect Hearing.

We have refined a proven, four-step method to ensure you achieve the best possible hearing results. It's a journey we take together, beginning with a crucial, in-person/online foundation to guarantee your success.

STEP 01

The Personal Consultation & Assessment

We start by listening. In our private Morges clinic, we take the time to understand your lifestyle, your challenges, and your hearing goals, combined with a comprehensive hearing assessment.

STEP 02

The In-Person Precision Fitting

This is the most important step. To ensure perfect sound quality and comfort, your initial two-hour fitting session must take place in person. We precisely calibrate your new hearing aids to your unique auditory profile. This session also marks the beginning of your complimentary three-week, no-obligation trial period, allowing you to experience the difference with complete confidence.

Personalized Support, Wherever You Are.

STEP

03

The Convenience of Remote Fine-Tuning

Once your initial fit is perfect, the ongoing support continues from the comfort of your own home. Follow-up sessions to fine-tune your settings can be done remotely via a simple, secure video consultation, saving you travel and time.

STEP

04

A Confident, Pressure-Free Decision

The decision to purchase is always yours, and it should be made when you feel ready. Whether you know on the first day or take the full three weeks to experience the benefits, we are here to support you. Welcome back to a life full of sound.

TECHNOLOGY THAT LISTENS TO YOUR LIFE

— FEATURES —

Clarity in Any Environment.

With advanced artificial intelligence, your hearing aids constantly analyze your surroundings and adapt instantly, so you can follow the conversation, not the noise.

Seamless Connectivity.

Stream crystal-clear audio from your television, listen to music, or take hands-free calls directly from your smartphone. Your hearing aids become your personal, high-fidelity headset.

Utterly Discreet & Comfortable.

So tiny, light, and perfectly sculpted, most people won't even notice you're wearing them—and you might even forget they're there.

Simple, Rechargeable.

Simply place your hearing aids in their charging case at night and wake up to a full day of clearer hearing. No more tiny batteries.

SECTION 3

FIND YOUR PERFECT MATCH

How to Choose? It's Simpler Than You Think.

It's About Your Life, Not Just Technology.

The best hearing technology doesn't just help you hear. It empowers you to live your life exactly the way you want to.

But finding the perfect match shouldn't feel complicated.

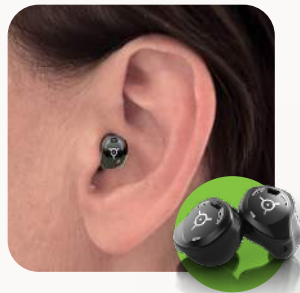

That's why we created this simple guide, it focuses on what truly matters: your world. Simply find the lifestyle description on the following pages that feels most like your own. We'll then show you our expert recommendations, with clear pricing for each, to help you make a confident choice.

The four types of hearing aid worn

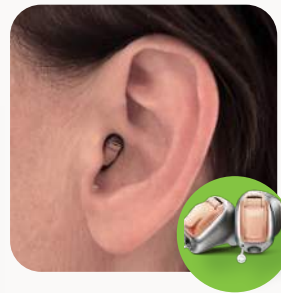

Behind-the-ear (Audéo)

Discreet and comfortable, this full-feature model hides behind the ear with only a fine, almost invisible wire visible in front of the ear and a flexible silicone tip deep in the ear.

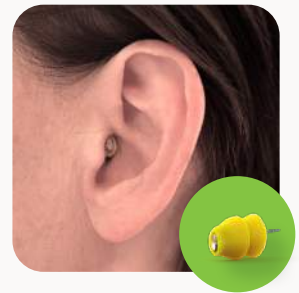

Visible In-ear (Virto-R)

Crafted in acrylic for a perfect fit, this full-feature model sits partially inside the ear and is visible from the side.

Discreet In-ear (Virto-10)

Crafted in titanium or acrylic for a perfect fit, this model sits entirely inside the ear and is only subtly visible from the side.

Extended wear (Lyric)

Inserted deep inside the ear canal for continuous wear, this model is designed to remain virtually invisible.

For a Professional & Active Life

You navigate a wide range of demanding listening situations, from important meetings in open-plan offices to busy public events and acoustically challenging spaces. You require the highest level of performance for an effortless experience, no matter the environment.

Our Premium Recommendations:

Phonak Sphere Ultra 90

The pinnacle of hearing technology, with their most advanced AI. It provides unmatched clarity and a true 360° sound experience, allowing you to thrive in the most complex environments.

Features at a Glance:

- ✓ AI for Unmatched Clarity in Noise
- ✓ Bluetooth and Rechargeable
- ✓ MyPhonak smartphone app
- ✓ Seamless Environment Adaptation

1 Ear: **3,250^{CHF}**

2 Ears: **6,500^{CHF}**

Phonak Sphere Ultra 70

Featuring their latest AI-powered platform for a more natural sound experience and exceptional clarity, even in bustling groups.

Features at a Glance:

- ✓ AI for Advanced Speech Clarity
- ✓ Bluetooth and Rechargeable
- ✓ MyPhonak smartphone app
- ✓ Automatic Environment Adaptation

1 Ear: **3,100^{CHF}**

2 Ears: **6,200^{CHF}**

For a Social Lifestyle

You lead a socially active life and want to follow conversations effortlessly, whether you're dining with friends, visiting family, or attending events. You need technology that can handle background noise with ease so you never miss a word.

Our Recommendations:

Available in three styles, each designed to be worn differently on the ear:

Audéo - Behind-the-ear

Virto-R - Visible-in-ear

Virto-10 - Discreet-in-ear

Phonak Infinio (Ultra) 90

A premium solution that offers the highest level of noise management for excellent speech understanding in the widest range of challenging situations.

Features at a Glance:

- ✓ Premium Noise & Speech Management
- ✓ Bluetooth and Rechargeable*
- ✓ MyPhonak smartphone app*
- ✓ Seamless Environment Adaptation

1 Ear: **2,950^{CHF}**

2 Ears: **5,900^{CHF}**

Phonak Infinio (Ultra) 70

Our popular advanced solution that intelligently analyzes and adapts to changing social environments for clearer conversations in noise.

Features at a Glance:

- ✓ Advanced Noise Reduction
- ✓ Bluetooth and Rechargeable*

SECTION 4

YOUR GUIDE TO A SEAMLESS EXPERIENCE.

Accessories to Enhance Your Experience

Your Phonak hearing aids already offer excellent performance — but in some situations, a little extra help can make all the difference. Phonak’s range of accessories is designed to give you even clearer, sharper sound, especially in group settings, noisy environments, or while watching TV.

Crystal-Clear TV Sound

PHONAK TV CONNECTOR

Stream TV audio wirelessly to your hearing aids — no delay, no distortion. Enjoy a fully immersive sound experience while others listen at their preferred volume.

CHF 180

Quick & Easy Volume Control

PHONAK REMOTE CONTROL

Adjust volume or switch programs with a single button. This compact remote is Bluetooth-enabled and simple to use. Powered by a button cell (CR2032) that lasts up to 12 months

CHF 260

Hear Clearly — Even from Across the Room

PHONAK REMOTE CONTROL

Clip it on the person you’re speaking with and hear their voice clearly, even in noisy settings or from across the room.

CHF 320

Accessories to Enhance Your Experience

Your Phonak hearing aids already offer excellent performance — but in some situations, a little extra help can make all the difference. Phonak’s range of accessories is designed to give you even clearer, sharper sound, especially in group settings, noisy environments, or while watching TV.

Better Group Conversations

PHONAK ROGER ON (V3)

The most versatile microphone — improves group conversation and also works as a TV Connector and PartnerMic. Now in its third generation with multiBeam technology for focused listening.

CHF 2,000

Master the Most Challenging Conversations.

PHONAK TABLE MIC (V3)

Perfect for meetings, group meals, or shared conversations. Simple to operate, includes remote. Now in its third generation.

CHF 2,000

Earpiece Options

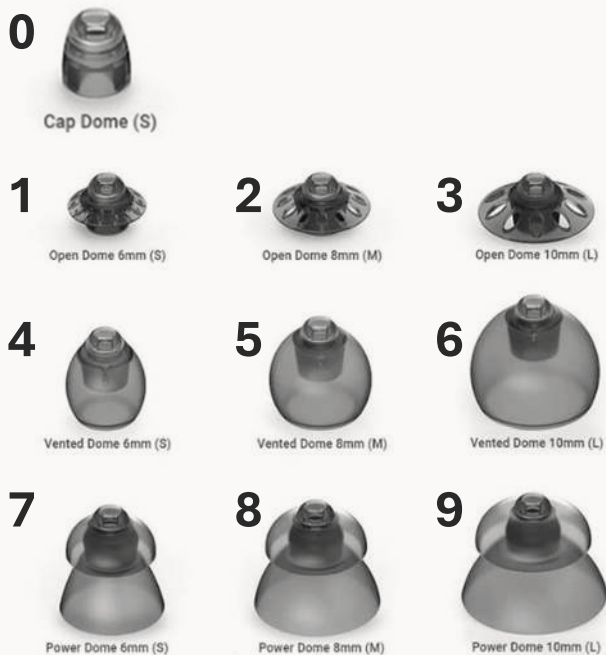

Choose the Right Earpiece for Your Behind-The-Ear Hearing Aids.

The earpiece or dome might look like just a small piece of plastic — but for behind-the-ear hearing aids, it plays a crucial role. A good fit is essential for both comfort and sound quality. We'll help you choose the best option based on your ear shape and level of hearing loss.

A- Soft Silicone Domes

- ✔ Available in 10 shapes and sizes
- ✔ Ideal for mild to moderate hearing loss
- ✔ Easy to replace at home
- ✔ Comfortable and discreet — hidden inside ear canal
- ✔ Numbered from 0 to 9 for easy identification
- ✔ Free with the purchase of your hearing aids
- ✔ Free replacements for the life of your hearing aids

Earpiece Options

Choose the Right Earpiece for Your Behind-The-Ear Hearing Aids.

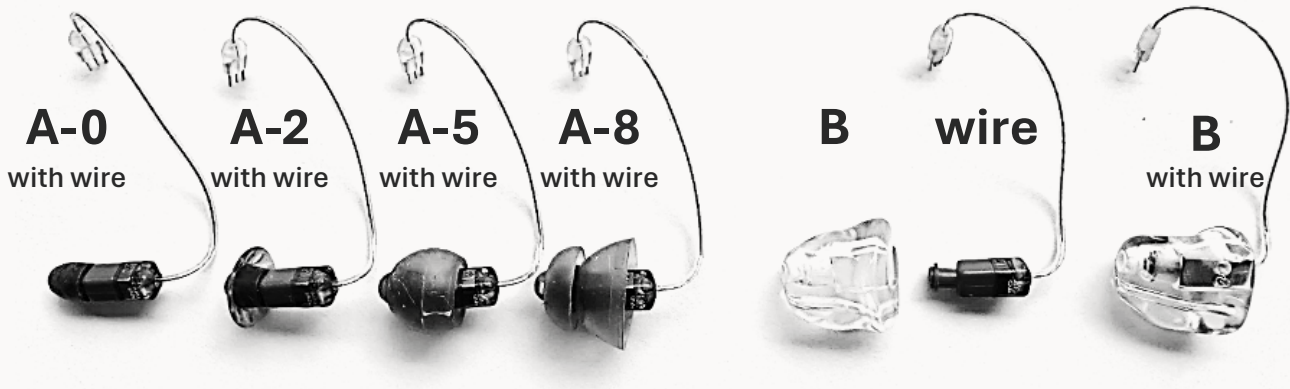

B- Custom-Made Acrylic Earpieces

- ✔ Made to measure from a scan of your ear
- ✔ Best for more severe hearing loss
- ✔ Improves speech clarity and sound stability
- ✔ Comfortable and discreet – hidden inside ear canal
- ✔ CHF 180 per ear or CHF 360 for both ears
- ✔ Non-refundable with 3-month guarantee on the shape and fit in your ear

Visual Comparison

See how each earpiece type looks — to help guide the choice you'll make together with your hearing aid specialist

The Silver Audition Promise

More than a device. A partnership for life.

We believe a great hearing experience goes far beyond the technology itself. It requires a deep commitment to your long-term success and peace of mind. That's why every hearing aid we provide is backed by our All-Inclusive Care Package—a comprehensive suite of services and guarantees designed to ensure you feel supported, secure, and confident at every step of your journey.

10+

**ADVANTAGES INCLUDED WITH
YOUR INVESTMENT**

Your 10 All-Inclusive Advantages

- ✓ **A 3-Week, Risk-Free Trial**
Experience the difference in your own world with no obligation to purchase.
- ✓ **Personalized Fitting & Fine-Tuning**
Your expert initial fitting and all adjustments for the first 3 months are included.
- ✓ **Convenient Remote Adjustments**
We provide complimentary hearing tests and device recalibration every 2 years to adapt to any changes in your hearing.
- ✓ **A 3-Year Warranty & Loss Insurance**
Your investment is protected by a comprehensive 3-year warranty and loss insurance in Switzerland. Please note that Terra models as well as all accessories come with a 2-year warranty and do not include loss insurance.

- ✓ **Flexible Monthly Payment Plans**
We also offer accessible payment plans to suit your budget, ensuring nothing stands in the way of better hearing. Payment is due within 7 days of finishing the trial.

Navigating Your Financial Support

Understanding and applying for financial aid can be complex. We handle all the paperwork for you, ensuring you receive the maximum reimbursement you're entitled to from Swiss institutions like AI, AVS, and SUVA. Here's a simplified overview of the most common contributions.

| Institution | Eligibility | Minimum Hearing Loss Measured by Approved ENT | Support Provided Every | Swiss francs, VAT included 1 ear / 2 ears |
|--------------------------|--|---|------------------------|---|
| AI | You are not yet receiving a Swiss AVS pension | 20% | 6 years | 840 / 1650 |
| AI Acquired Right | You now receive a Swiss AVS pension and you previously received financial support for hearing aids before getting your pension | 20% | 6 years | 840 / 1650 |
| AVS | You now receive a Swiss AVS pension | 35% | 5 years | 630 / 1237.50 |
| SUVA | Your hearing loss occurred as a result of work in Switzerland. | 20% | 6 years | 1398 / 2175 Simple 2016 / 3200 Complex |
| AMF | Your hearing loss occurred as a result of military service in Switzerland. | 20% | 6 years | 1398 / 2175 Simple 2016 / 3200 Complex |
| Health Insurance | You have supplementary health insurance | Depends on your policy's specific terms | | |

SECTION 5

PROTECT THE HEARING YOU HAVE

SERENITY CHOICE

Protect The Hearing You Have

Protecting Your Hearing is Protecting Your Future.

Irreversible hearing loss is often caused by exposure to noise. We offer a range of Phonak Serenity Choice™ earplugs that reduce harmful noise while preserving sound clarity—perfect for musicians, concert-goers, industrial workers, motorcyclists, and even getting a peaceful night’s sleep.

Phonak Serenity Choice™ earplugs are designed to reduce harmful noise while preserving natural sound clarity and speech understanding — so you stay protected without feeling cut off from the world.

Why Serenity Choice™?

- ✓ **Your Choice of Fit: Universal or Custom.**
Choose from a range of affordable, off-the-shelf models for an instant, comfortable fit, or invest in a custom-molded version, made-to-measure from a precise scan of your ears for the ultimate in long-term performance and comfort.
- ✓ **Effective Noise Reduction**
Filters out excessive noise, reducing sound by up to 30 dB depending on the model — without blocking important sounds like voices.
- ✓ **Clear Sound & Speech**
Maintains situational awareness — perfect for musicians, motorcyclists, workers, travellers, and light sleepers
- ✓ **Comfort for All-Day Wear**
Hypoallergenic, breathable materials prevent moisture build-up and fit snugly in all ears — universal or custom-moulded available.
- ✓ **Durable & Reusable**
Washable and long-lasting, with a compact carrying case for easy transport.

- ✓ Voices and background noise remain audible.

Serenity Choice Music

Features:

- ✓ Helps prevent hearing damage at concerts, in nightclubs, etc.
- ✓ Minimal occlusion.

Frequently Asked Questions.

Will people notice I'm wearing hearing aids?

Our devices are incredibly discreet and our attention to detail is such that, your closest friends may not even notice that you're wearing them. And we'll find a solution so comfortable, even you'll forget you're wearing them.

Are modern hearing aids complicated to use?

Not at all. In fact, they are designed to be the exact opposite. Today's hearing aids are remarkably intelligent and almost entirely automatic.

Hearing aids seem expensive. What am I really getting for my investment?

It's true that hearing aids are a significant investment in your health and quality of life. What you're paying for isn't just the device itself; it's our complete, long-term care package. This includes the professional expertise of our specialists, a precise fitting, ongoing support and adjustments for the life of the devices, and our commitment to ensuring you achieve the best possible hearing.

If I only have a problem in one ear, do I really need two hearing aids?

In the vast majority of cases, yes. Our ears and brain are designed to work as a team to locate sounds and filter out noise. Fitting both ears (known as a "binaural" fitting) allows your brain to process sound naturally, which provides a much clearer, safer, and more comfortable hearing experience. We always perform a full assessment to determine the perfect solution for you.

Why are your prices lower than at other clinics?

As specialists, we operate very efficiently. We believe in fair, transparent pricing to make the best hearing technology accessible to more people. We don't compromise on service or quality; we simply provide exceptional value.

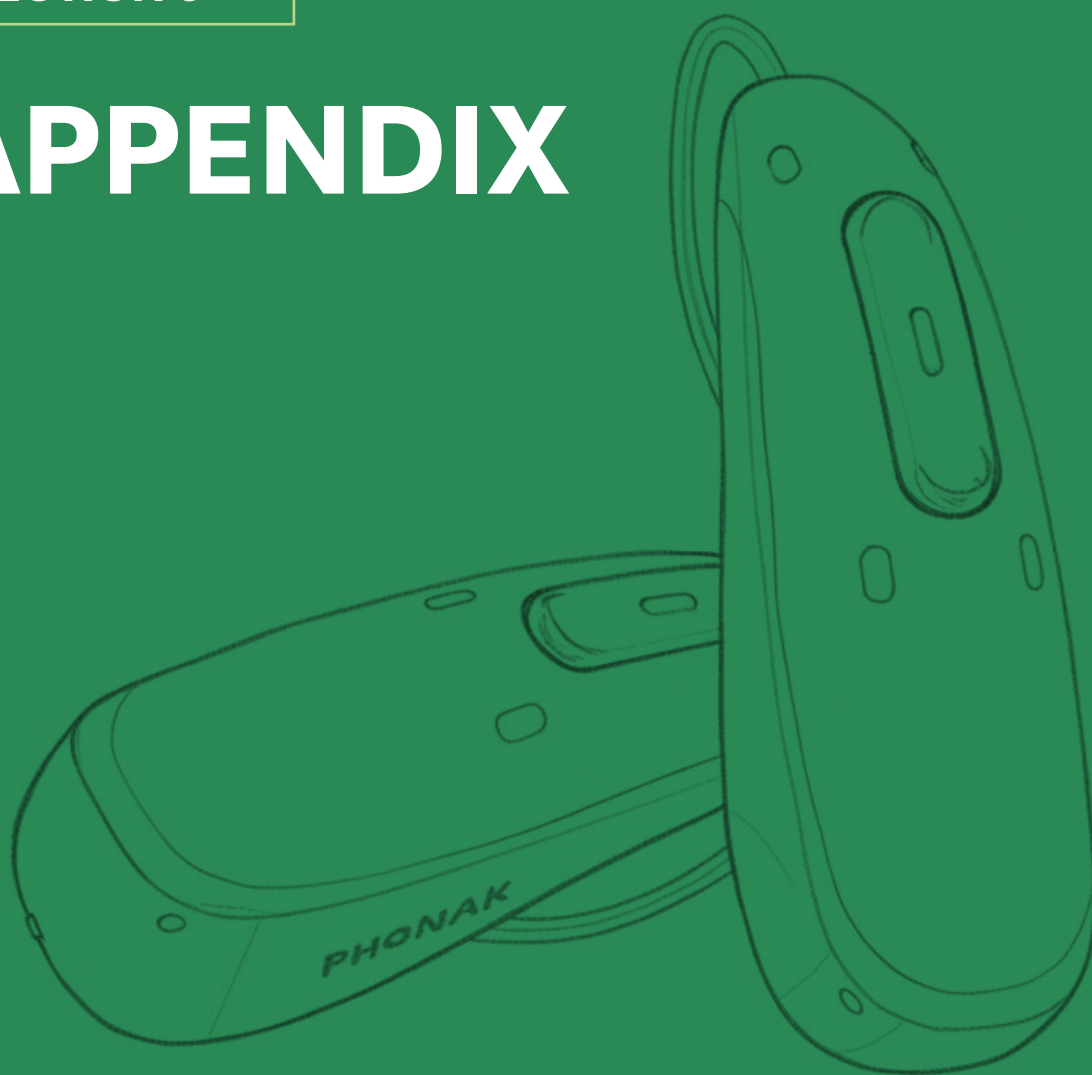

Can I pay in monthly instalments?

Yes, we offer flexible payment plans to suit your budget. We can discuss these options during your consultation.
